Continuation of Substance of Interview including description of the general nature of what was discussed: In reviewing applicants' claims in the after final response the examiner indicated that R1 as benzyl is not seen in the original claims or specification, only R4 as benzyl as previously pointed out by applicants. Thus it was agreed to modify the main claims by inserting after "or" in the R1/R4 definition "additionally R4 is". This will be done via an Examiner's Amendment..
